Avalon Use Policy in the Time of COVID

We are excited about getting together and dancing again. However, we want to do so with consideration of the health and safety of our community. In establishing this policy, we have considered the guidelines established by Boulder County, the State of Colorado, and the CDC.

Also,

- Because dancing is much more intimate than other indoor activities and therefore could be more apt to spread disease,
- And because our population skews older than the general population and is therefore at higher risk from severe disease,
- And because our HVAC system is not designed to neutralize viruses:

our policy emphasizes **community safety**.

As the situation changes, this policy may change.

Avalon Policy:

- The Avalon is a "vaccinated only" venue.
- Renters must provide proof of vaccination to Avalon staff prior to holding events.
- Renters are responsible for ensuring that all attendees at their events are fully vaccinated.
- All attendees at all events must provide proof of full vaccination when asked by the event organizer or Avalon staff.
- Because the repercussions would be serious if an outbreak occurs at the Avalon, renters who fail to ensure that attendees are vaccinated risk losing rental privileges.

Note:

We understand that some people are unable to get the vaccine for health reasons. We are sorry that those people will be unable to attend Avalon events. We hope that, as the pandemic wanes, we can accommodate all those who wish to dance at the Avalon.
